Scraperfoil

With Scraperfoil, buried silver or gold treasures lie beneath pre-printed outlines, revealed by craftily scraping away the surface using the special tools provided. Follow the lines or add flourishes of your own, it's easy when you've honed your skills using the practice sheet provided. Result? Priceless pieces to be proud of.

It's your time to shine...

Paint by Numbers

Paint, brushes and board are all inside...just bring water and your imagination. Start from the top and fill larger areas first to make revealing this mathematical masterpiece as easy as 1, 2, 3. Or go freestyle, cross the lines and make the image appear. There are no rules...except being careful to cover surfaces (and yourself) to keep your creative expression connected to the picture.

MINI SILVER SCRAPERFOILS

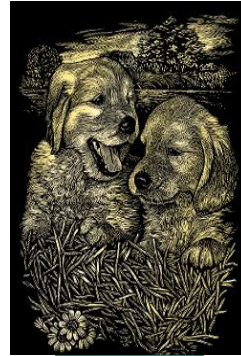

Each one is made up of a pre-printed illustration, 1 practice sheet and 1 scraper tool.

Super inks superwashable. Spotless hero. The inks of CARIOCA® felt tip pens are produced entirely in our plants. That is why we guarantee the maximum safety and traceability. We use food dyes and, thanks to years of research, we ensure unbeatable levels of washability and brilliance.

"Superwashable" means that you need only one cycle with water to wash away all traces of ink from skin and fabrics.

"Washable" means easily removable with soap and water from skin and fabrics.

The special holes on the caps let air pass through, so as to avoid the risk for suffocation. The internal valve also preserves the quality and duration of writing.

Our inks are colored using food dyes. The plastics used are suitable for contact with food and can be completely recycled.

The tips are shocks resistant and do not draw back.

STABILO® woody 3in1

A REAL ALL-ROUNDER.

A COLORED PENCIL, WATERCOLOR AND WAX CRAYON ALL IN ONE.

- Children love it – because the STABILO woody 3in1 can be used to decorate window panes, bread bins, CDs and boards – and, of course, paper, cardboard and boxes too!
- Parents can relax – because the color can be very easily washed off windows.
- For extra-loooooong drawing fun: the lead contains eight times more color than a normal colored pencil!
- For big works of art: the thick lead makes sure everything is colored quickly.
- Little hands, big pencil: the shape of the STABILO woody 3in1 means it sits perfectly in a child's hand!
- Indestructible: the thick lead is unbreakable and can withstand even the wildest of children's rooms.

Draws on cardboard

on glass

on paper

and is, of course, aquarellable

on dark backgrounds

STABILO® woody 3in1

ALWAYS DIFFERENT. ALWAYS CREATIVE.

SCRAPING TECHNIQUE

Child's play: firstly, draw several layers of color on top of each other on a sheet of paper – starting with the light colors. The last layer should always be black or a dark color. Use the scraper to scrape a picture in the dark layer. This reveals the wonderful colors beneath.

HAIRDRYER TECHNIQUE

Blow dry the lead of the pencil – this changes the structure of the color. The soft, malleable color can now be applied to the paper. By smearing the colors with your finger you will create wonderful, flowing color gradients.

PASTEL TECHNIQUE

If it's subtle color transitions and new color variations you want – simply smear the colors of the picture with your fingers. Coarse paper is best for this technique. Professionals use fixing spray to ensure the color adheres to the paper for as long as possible.

STENCIL

FROTTAGE

WATERCOLOR TECHNIQUE

Great art made easy: firstly, use the STABILO woody 3in1 to apply various color splashes to the paper. Then paint over and mix the splashes with a damp brush – as if they were water colors. Thicker paper is best for painting good watercolor pictures, as it doesn't get soggy so easily.

STENCIL TECHNIQUE

A simple technique for effective contours and exciting color gradients: firstly, color the edges of the stencil with your STABILO woody 3in1. Then put the stencil on the paper and rub the color from the stencil onto the paper.

FROTTAGE TECHNIQUE

Place a coin, a leaf or any flat object under the paper and draw over the paper with the STABILO woody 3in1. As if by magic, the structure of the object now appears on the paper.
